It should be noted that, as with all medical treatments, TMS can cause side effects, such as:

- ☐ Headache, dizziness, drowsiness (harmless, usually short-term)
- ☐ Harmless speech disorders (only during treatment)
- ☐ Migraine attack (in migraine patients)
- ☐ Seizure (extremely rare)
- ☐ Tinnitus and its increase (in tinnitus patients)
- ☐ Manic episode (extremely rare)
- ☐ Questionable fetal damage in early pregnancy
- ☐ Growth of an already existing brain tumor
- ☐ Aneurysm bleeding in the brain with an existing vascular malformation

I put my watch, cell phone, glasses, credit cards, hearing aids or similar things at least 1 meter to the side.

I understood everything and no further questions. I expressly agree to the treatment.
